

27 March, 2024

Prof. Yu Zhu  
Professor  
College of Grassland Science and Technology  
China Agricultural University

### Visiting itinerary- attachment

Dear Prof. Yu Zhu

On behalf of Okayama University, I am delighted to invite you and your co-workers from China Agricultural University, South China Agricultural University, and Inner Mongolia Agricultural University. Delegates from three universities are welcome to visit Okayama University, Japan.

This visit aims to discuss potential collaborations and exchanges, carry out talent training and scientific research cooperation in the fields of grassland science and animal science, and explore agricultural science and technology innovation hubs. The period will be from 28 April to 5 May 2024.

The information described below is the schedule of the visit.

4.29	Okayama	Depart Osaka in the morning by Shinkansen and arrive in Okayama City in the afternoon to discuss the degradation technologies for various types of toxic and harmful factors in feedstock and the attached microbial populations.
4.30	Okayama	Visit the Faculty of Agriculture at Okayama University for a summary exchange on the progress of cooperative research projects.
5.1	Okayama	The Faculty of Agriculture at Okayama University facilitates the exchange of research on microbial ecology and technologies for utilizing by-products in FTMR.
5.2	Okayama	Interview with the Agricultural Innovation Center at Okayama University to discuss talent cultivation and scientific research collaboration.
5.3	Okayama	Technical discussion on animal digestion and metabolism testing of FTMR at the Faculty of Agricultural Sciences, Okayama University.
5.4	Kyoto	Depart from Okayama to the off-campus ranch base in Kyoto. Discuss the content of FTMR security preservation.

Yours faithfully,

西野直樹

Naoki Nishino, Ph.D.  
Professor  
Graduate School of Environmental, Life, Natural Science and Technology  
Okayama University, Okayama 700-8530
